

The Workshop

The Pancyprian Union of Chemists (PUC) has the honour to host the "Eurachem Week" for a second time after May 2002, on the occasion of the 20th Anniversary of its membership in Eurachem (Dublin, May 1997). The Workshop is organised by the PUC in connection with Eurachem General Assembly 2017 and related activities.

The Workshop is dedicated to the memory of Dr Paul De Bievre (1933-2016) in appreciation of his overall contribution to Metrology in Chemistry and Eurachem activities and, in particular, of his support of training activities in Cyprus.

Invited contributions

The Scientific Committee invites participants to present posters and oral communications on subjects related to the theme of this Workshop. To this end, when submitting poster abstracts, participants should indicate whether they prefer their abstracts to be considered for oral presentation as well.

- Abstracts presented according to the format provided with on the website and submitted to the Scientific Committee for approval before 15th January 2017.
- Early career scientists will be given the opportunity to give an oral presentation after a consideration of the abstract they submit.
- Participants will be notified of acceptance by 31st March 2017.

Venue

All activities will be hosted in the new campus of the University of Cyprus (A. G. Leventis House, Aglantzia, Nicosia).
